Dear Sir/madam,
Here are my comments in regard to your questionnaire:

Q1. yes
Q2. yes
Q3. yes
Q4. yes, no more than 5 years
Q5. yes definitely
Q6. yes
Q7. I think it is very important that there is no confusion and the public be aware that all optometrists are equally qualified in Australia and able to take care specific eye problem. As a profession we do not want a situation where some optometrists can only refract while others can diagnose and manage some ocular conditions as well as refraction. The public has to be aware that their local optometrist is the first port of call for any eye problems (not just spectacles/contact lenses).

Regards,
Mi ja, Choi
