

Subject: therapeutic endorsement
Date: Wednesday, 26 January 2011 10:52:51 AM

Dear Sir/Madam

I believe that therapeutic endorsement should be a prerequisite for Australian registration with a 5 year period of grace. I am not yet endorsed myself. However I am concerned about the fact that I am also GOC registered to work in the UK. Would therapeutic endorsement in the UK be recognised in Australia and via versa? I believe that therapeutic endorsement should be mutually recognised between the UK and Australia.
