

Subject: Glaucoma Management
Date: Monday, 4 February 2013 1:17:10 PM

Dear Mr Waldron

I would like to support a submission for “independent management” of glaucoma by optometrists.

Glaucoma treatment by optometrists will be more efficient in several ways:

- a) Prompt
- b) More time efficient for patients
- c) Less financial burden on patients
- d) Less financial burden on Medicare
- e) Will encourage optometrist invest more money and time into profession and self education.

With warm regards

Gene Virtser
(Optometrist)
